

INTERNAL MEDICINE RESIDENCY PROGRAM

Chief Resident's Welcome

Dear applicants,

Welcome to the HonorHealth Internal Medicine Residency website! We are very proud of our program and would love to share with you the things we value most about it. It's our hope that you will have a fantastic experience with us, and we welcome any and all questions about our residency home.

Here at the program, we have placed a significant emphasis on culture. Our culture embraces wellness, valuing resident mental and physical wellbeing in a very real way. We believe that by taking care of our residents, we can set them up for success to become the very best physicians they can be. We want them to feel comfortable, ready to learn, and ready to grow.

We have also placed a significant emphasis on education. We encourage and require scholastic activity, protect and continuously optimize educational time, and do it all in the setting of wellness so that the resident mind can be optimally trained. It's important to us that you not only take care of your patients in a practical sense, but that you know all there is to know about their pathologies!

Finally, we know that in residency, you will have a 3-year experience that is different from any other time in your life. It can be busy and stressful. So, we know that coming together as a team, supporting each other and being a "resident family" is one of the best things we can do. All of our residents have developed significant friendships here that will last a lifetime. We have plenty of group activities outside of work to get to know each other, and we will be there for our residents in every way possible throughout the journey. We know that this is a strenuous part of the medical training journey, and we want to partner with our team to do it together, never alone.

Left to right: Drs. Taranto, O'Neill, McCleary

We look forward to welcoming you to our program! Please feel free to reach out to us with any questions, and best wishes for your success in your residency.

Sincerely,

Drs. Jacqueline O'Neill, Paige McCleary, and Lydia Taranto
Chief Residents 2020-2021
