

## ADDICTION MEDICINE FELLOWSHIP PROGRAM

---

### Class of 2023

**Michael Igwe, MD**

Residency: Maricopa Integrated Healthcare System

I am board certified Internal Medicine physician. My undergraduate School was at University of Port Harcourt, and I attended medical school at University of Port Harcourt Teaching Hospital, Nigeria. I finished my internal medicine residency at Maricopa Integrated Healthcare System (now Valleywise/Creighton graduate medical education).

My clinical interests include nutrition, recovery from substance use disorder and general approach to better health. I am enthusiastic about providing total care and seeing people live a better and healthier life. My hobbies include playing musical instruments and soccer. HonorHealth's affiliation with the community through CBI was a selling point for me.

### Class of 2024

**Mona Ghavami, MD**

Residency: Metropolitan Hospital, NYC

I was born in Tehran, Iran, and graduated from Azad University of Medical Sciences. I moved to the United States to pursue continuing education and completed Internal Medicine Residency at Metropolitan Hospital in New York City. My clinical interest is applying the latest evidence-based research in treating Alcohol and Opioid Use Disorders. I believe deeply in encouraging my patients to adopt a healthy lifestyle while educating how substances can affect the human body and mind. I hope to contribute to society and the greater public by providing excellent care with the utmost compassion.

I enjoy biking, swimming, traveling, and spending time with my family and friends. The variety of community clinics and inpatient settings at Honor Health appealed to me. I always wanted to live in the valley of the sun and enjoy the many outdoor activities.
