

## GASTROENTEROLOGY FELLOWSHIP

Academic Year 2023-2024

---

### Class of 2026 – Inaugural Fellows

**Andrea Schneider, DO**  
Fellow Year 1

**Medical School:** Arizona College of Osteopathic Medicine

**Clinical Interest:** Intestinal health, nutrition, neurogastroenterology, hepatology, nonalcoholic fatty liver disease

**Hobbies/Interests:** Fitness, cooking, traveling, and playing with my German Shepherd

**What stood out the most about HonorHealth and motivated you to choose this particular program?** My experience with HonorHealth started during my internal medicine residency training. My experience showed me patient care is a priority with an interdisciplinary care approach. Because of the small class size everyone has the opportunity to pursue and create their own unique experience that is supported by staff and

mentors. I was amazed to see the mutual respect amongst staff and the academic support trainees receive as well as the diverse pathology I saw. With the growth of HonorHealth the environment has continued to feel safe and comfortable, allowing me to master my craft and achieve my academic goals. Without a doubt the easiest decision I made!

**Faisal Mehmood, MBBS (MD)**  
Fellow Year 1

**Medical School:** King Edward Medical University, Pakistan

**Residency:** Internal Medicine-Icahn School of Medicine at Mount Sinai, New York

**Clinical Interest:** General GI, hepatology, and advanced endoscopy.

**Hobbies/Interests:** Spending time with my family and friends, playing cricket, and outdoor activities.

**What stood out the most about HonorHealth and motivated you to choose this particular program?** I was looking for a program that can provide me with diverse clinical exposure, wonderful hands-on experiences with procedures, strong mentorship, and a great supportive and friendly work environment. I am fortunate that HonorHealth

has all of these aspects and so much more. Scottsdale is an amazing place to live and raise a family.
