

SEWER UPGRADE TO AFFECT CAMPUS ACCESS MAY 29-JUNE 5

Phase Three, the construction of Pavilion 3, is well underway. An external traffic restriction is set to begin on Thursday, May 29 which will affect patient, visitor and team member access points.

Drivers traveling southbound on N. 27th Avenue will not be able to make a left turn at the south driveway entrance and will need to turn left at the traffic light, then proceed through the Emergency Department parking area to reach the parking garage. Traveling southbound, the left lane and crossover lanes will be closed in front of the campus.

Drivers traveling northbound on N. 27th Avenue will not have an entrance restriction; however, lane access will be down to a single lane northbound in front of the campus.

U-turn access will be available for **southbound EMS traffic only** at the PetSmart driveway (circled on the image below) to enter through the south entrance. Access will be monitored daily by City of Phoenix officers.

This upgrade is expected to affect campus access from Thursday, May 29 to Thursday, June 5. Please allow for extra time entering and leaving the campus during this time.

We ask that all team members and clinicians continue to park in the parking garage in the back of the campus or their designated areas during construction.
