

# GERIATRIC MEDICINE FELLOWSHIP PROGRAM

## Fellows

---

### Class of 2026

**Salvador Adame Zambrano, MD****Fellowship:** Geriatrics**Residency:** Southern New Mexico Family Medicine Residency Program**Medical School:** Universidad Autónoma de Ciudad Juárez

**Clinical Interests:** My interests are broad in Geriatric medicine. I am very interested in decreasing the gap on accessibility in Geriatric Medicine for the older adult particularly in rural areas, my main clinical interests are Nursing Home medicine, Post Acute Care, and Care at the End of Life.

**Hobbies/Interests:** Hiking, National Parks, Astronomy.

**Why Geriatrics?** I was initially introduced during my residency years to the Care of Older adult rotation; this showed me the importance of Interdisciplinary Team Approach to the care of this population. I am a strong believer that the aging population should have access to a High-Quality medical care, that is not only directed to patients medical issues but also to patients social needs.

**What stood out the most about HonorHealth and motivated you to choose this program?**

I was very interested in being trained in a system that will continue exposing me to a diverse population, particularly within the elderly population, which I found in HonorHealth. It was very important for my decision to apply at HonorHealth when I learned about the emphasis it is put on decreasing social disparities within this community, particularly on health care.
