

Care At Home

Welcome to HonorHealth Home Health

Being cared for at home is often the most comfortable place to maintain and restore your health or the health of a loved one. Home care can also minimize the effects of illness or disability. With HonorHealth's Home Health Services, you can choose from several in-home care options. Your care will follow your physician's orders and your care plan. Services include:

Nursing services

- Intravenous and enteral therapy.
- Catheter, ostomy and wound management.
- Diabetic care management and teaching.
- Assessment and teaching.
- Cardiopulmonary.
- General assessment and teaching.

Physical therapy services

- Gait and transfer training.
- Therapeutic and home exercise programs.
- Home safety service and fall prevention.
- Balance training.
- Cardiology-pulmonology rehabilitation.
- Post-surgical rehabilitation.
- Injury and chronic illness rehabilitation.
- Neurology therapy.
- Parkinson's therapy.
