

From a minor sports injury to a total joint replacement, you'll receive outstanding care from the HonorHealth orthopedic team. Our array of services will help you return to an active, pain-free lifestyle as quickly as possible. Learn more by attending a free seminar. Visit [HonorHealth.com/ortho](https://www.honorhealth.com/ortho).

Your Personal Road to Recovery

Sometimes an orthopedic injury requires immediate attention and surgery. Other times you may need physical therapy, medications, splinting and lifestyle modifications to help you heal.

The first step is talking with an orthopedic specialist about your concerns and goals. Before making your decision, we'll help you understand all your options so you can feel confident in your choice.

If surgery is your decision, our experts will work with you from scheduling through recovery. Using advanced technologies, our team will help you achieve the best possible outcome. You'll have the same care team there for you from the first pre-surgery class to the final physical therapy session. Because your team will help you develop a plan that works for you, you'll know what to expect and feel supported the entire time.

Total Joint Replacement

Painful joints are not uncommon, especially as you age, and the pain can make the simplest daily activities hard to accomplish. At HonorHealth, you can choose joint replacement options that work best for your needs to help you return to a more active life. Treatment options include robotic technology that allows a surgeon to operate with more precision so your joints can heal faster and with less pain.

Back Pain

Comprehensive, less invasive options and the latest techniques make a difference. Because each case is unique, our coordinated, personal approach will help point the way to the best option for your spine care.

Moving Again

Physical therapy to get you moving quickly begins in the hospital setting. Our physical therapists will help you work to meet your personal mobility and activity goals. Once you're discharged, you'll find convenient HonorHealth physical therapy locations near you.

Short Stay, Convenient Locations

You can rely on us to get you back to doing the things you love as quickly and easily as possible. Our advanced surgical techniques minimize hospital stays. Our focus is your focus: a speedy recovery. With orthopedic services in multiple locations, you'll find a treatment option that's convenient for you.

Innovative Physicians

Our orthopedic specialists are leaders in their fields. They're also innovators. They have developed better and newer techniques for care, and many of them travel the country teaching other orthopedic surgeons.

For your convenience, you'll find comprehensive orthopedic care and total joint replacement at all of our medical centers. You'll also find outpatient therapy and more at a location near you. Start your journey today, visit [HonorHealth.com](https://www.honorhealth.com) or call 623-580-5800.
